

ABDULLA ANSARI

Meerut, Uttar Pradesh, India

 +91 6307716785 —  abdulatoryan6307@gmail.com —  LinkedIn —  Portfolio —  GitHub

SUMMARY

Aspiring Software Engineer and AI Engineer with hands-on experience building scalable web applications and AI-powered solutions using Python, Django, Django REST Framework, React.js, FastAPI, LangChain, and LangGraph. Skilled in developing Agentic AI systems, Retrieval-Augmented Generation (RAG) applications, RESTful APIs, database modeling (PostgreSQL, MySQL), JWT authentication, cloud storage, and payment gateway integrations. Passionate about writing clean, maintainable code, solving real-world business challenges, and engineering user-centric web platforms.

EDUCATION

B.Tech in Information Technology	2023 – 2027 (Present)
<i>Chaudhary Charan Singh University</i>	<i>Meerut, India</i>

TECHNICAL SKILLS

Programming Languages : Python, JavaScript , React, SQL, Java, C++, C, Object-Oriented Programming (OOP)

Backend Development : Django, Django REST Framework (DRF), FastAPI, RESTful APIs, JWT Authentication, CORS

Databases & Cloud Storage : PostgreSQL, MySQL, SQLite, Cloudinary CDN, DBMS, Data Modeling, Query Optimization

AI & Machine Learning : Agentic AI, LangChain, LangGraph, Retrieval-Augmented Generation (RAG), ChromaDB, Prompt Engineering, LLMs

Data Analytics & Tools : Power BI, Pandas, NumPy, Matplotlib, Seaborn, Git, GitHub, VS Code, Vercel, Render

EXPERIENCE

Company – UdyamKart (Data Analyst Intern)	Feb 2026 – June 2026
<i>Remote, India</i>	

- Cleaned, processed, and validated large customer datasets using **Python (Pandas, NumPy) and SQL** to maintain data accuracy and integrity.
- Performed exploratory data analysis (EDA) to uncover sales patterns, customer behavior trends, and actionable business insights.
- Designed interactive, executive-ready dashboards in **Power BI and Excel** to facilitate data-driven business decisions.
- Collaborated with cross-functional team members to automate analytical workflows, reducing manual reporting turnaround time by 30%.
- Standardized data reporting pipelines and presented monthly performance summaries to senior leadership.

FEATURED PROJECTS

Ansari Store – Full-Stack Multi-Vendor E-Commerce Platform [\(Live Demo\)](#) [\(GitHub\)](#)

- Architected and deployed a production-grade Multi-Vendor E-Commerce marketplace using **React 18 (Vite)**, **Django REST Framework (DRF)**, **PostgreSQL**, and **Cloudinary**.
- Built dual dedicated interfaces: a customer storefront (dynamic search, multi-attribute filtering, cart, wishlist, **Stripe checkout**) and an interactive vendor workspace.
- Engineered a real-time **Vendor Analytics Dashboard** featuring interactive Chart.js revenue visualizations, inventory control, automated coupon generation, and multi-variant product CRUD.
- Developed an in-app **Live Package Tracking System** with carrier AWB tracking numbers, automated multi-checkpoint logistics telemetry, and instant invoice generation.
- Implemented resilient **Cloudinary cloud media storage with automated fallback handling**, WhiteNoise static asset compression, and secure SimpleJWT token authentication.

AibyAI – Autonomous Agentic AI Chatbot Platform [\(Live Demo\)](#) [\(GitHub\)](#)

- Built and deployed an autonomous **Agentic AI Chatbot** leveraging **Python**, **FastAPI**, **LangGraph**, **LangChain**, and modern LLMs with real-time token streaming.
- Implemented an advanced **Retrieval-Augmented Generation (RAG)** pipeline utilizing **ChromaDB** vector embeddings to contextualize multi-format documents (PDF, DOCX, TXT, CSV, Python).
- Designed an intelligent **dynamic tool-calling engine** enabling the agent to autonomously orchestrate web search, vector retrieval, conversational memory, financial data, and utility tools.
- Integrated end-to-end security with **JWT authentication**, **bcrypt password hashing**, session management, and persistent chat history using SQLAlchemy and SQLite.

CERTIFICATIONS

- **Smart India Hackathon (SIH) Certification** – Ministry of Education & AICTE, Government of India
- **Power BI Specialist Certification** – Data Modeling, Advanced DAX, and Business Analytics Dashboards
- **SQL for Data Science Certification** – Query Optimization, Joins, Aggregations, and Schema Design
- **Python for Data Science & Machine Learning** – Data Preprocessing, EDA, and Supervised Algorithms
