## PROFILE SUMMARY

---

Aspiring Data Analyst with hands-on experience in Python, SQL, Power BI, and Excel. Skilled in data cleaning, analysis, and visualization to drive business insights. Completed projects in fraud detection, credit risk prediction, and healthcare analytics. Strong foundation in machine learning, statistical analysis, and business intelligence reporting.

## EDUCATION

---

**Chaudhary Charan Singh University, Meerut**  
*B.Tech in Information Technology – CGPA: 7.60*

**2023 – 2027 (Present)**  
*Meerut, India*

## SKILLS

---

**Languages / Tools:** Python, SQL, C++, Excel, Power BI, Data Set Handling

**Libraries / Frameworks:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

**Databases / Platforms:** MySQL, Jupyter Notebook, VS Code

**Core Strengths:** Data Cleaning, EDA, Data Visualization, Predictive Modeling, Reporting

## EXPERIENCE

---

**Data Analyst Intern – UdyamKart**  
*Remote, India*

**Feb 2026 – July 2026**

- Cleaned and preprocessed large datasets using Python (Pandas, NumPy) and SQL to ensure data accuracy and consistency.
- Performed exploratory data analysis (EDA) to identify trends, patterns, and business insights.
- Developed interactive dashboards using Power BI and Excel to support data-driven decision-making.
- Worked on real-world business data to analyze customer behavior and improve reporting efficiency.
- Collaborated with team members to automate data workflows and improve data processing time.

## PROJECTS

---

### Exploratory & Predictive Analysis on Cancer Dataset ([Project Link](#))

- Performed EDA on 50,000+ cancer patient records to identify trends and disparities.
- Analyzed demographic, lifestyle, genetic, and environmental factors affecting survival.
- Built visualizations and predictive insights to support healthcare decision-making.

### Python-Driven UI for SQL Database Operations ([Project Link](#))

- Built a Streamlit-based application for non-technical users to interact with MySQL databases.
- Implemented tables, views, and stored procedures with Python–MySQL integration.
- Developed features for viewing, filtering, inserting, and updating business data.

### Live API Data Integration & Real-Time Dashboards ([Project Link](#))

- Built live Power BI dashboards using real-time data from public APIs via Python.
- Automated data fetching and processing for auto-refresh dashboards.
- Analyzed global socio-economic and health indicators to identify trends.

## CERTIFICATIONS

---

- Power BI Specialist Certification
- SQL Certification
- Smart India Hackathon – CCSU Meerut
- Machine Learning Certificate

## EXTRACURRICULAR

---

- Taught basic Java/DSA
- Currently learning Machine Learning and building practical projects
- Currently upskilling in Generative AI and Data Analytics tools
